

GOLD-STANDARD MULTIMEDIA NEUROSURGICAL RESOURCE NOW AVAILABLE FOR LIBRARIES

For the first time, Atlas multimedia neurosurgical education and training is available to libraries. **The Neurosurgical Atlas** is an invaluable daily resource for medical students, residents, and faculty across neurosurgical and neuroscience disciplines, offering interactive anatomical images, narrated case videos from master surgeons, exclusive chapters, and links to contextual journal articles.

Extensive, Visual, and Authoritative

The most complete multimedia collection to support neurosurgical training and practice in existence, including:

- 1000+ narrated operative videos in which top surgeons perform novel and efficient techniques
- 5000+ exclusive, original step-by-step illustrations and surgical images
- 1700+ interactive neuroanatomy images that offer an unparalleled learning experience
- 526 comprehensive and exclusive chapters
- The Atlas continuously releases new content and will be introducing cutting-edge artificial intelligence technologies that will revolutionize operative planning and simulation.

TRUSTED RESOURCE

The Neurosurgical Atlas is a trusted resource at top medical libraries, including:

- SSPA, Spain
- Gent University, Belgium
- Heinrich-Heine-Universität Düsseldorf, Germany
- Kantonsspital Aarau, Switzerland
- Medical Faculty of Mannheim, Germany
- Medizinische Universitätsbibliothek Graz, Germany
- Na Homolce Hospital Prague, Czech Rep
- Umea University, Sweden
- Università di Brescia, Italy
- Universitat de Barcelona, Spain
- University of Ferrara, Italy
- University of Gothenburg, Sweden

Dedicated Community of 75,000+

Since launching in 2016, the Atlas has grown a community of over 75,000 members that includes:

- Practicing Neurosurgeons
- Medical students attending neurosurgery rotation as part of their medical school curriculum
- Residents in Neurosurgery, ENT, Radiology, Anesthesiology, Endocrinology, and other specialties
- Physicians Assistants and Nurse Practitioners
- Radiologists/Radiation Oncologists
- Head and Neck (ENT) Surgeons and Anesthesiologists
- Operating room staff (nurses, technicians, etc.)
- Pathologists, Anatomists, and Neuroscientists

Hear From Our Members

“The Atlas has taken the field of neurosurgery into the future... the Atlas is serving as a **‘bridge’ to what is coming.**”

- Steven Kalkanis, MD, CEO of the Henry Ford Medical Group (HFMG) and Senior Vice President and Chief Academic Officer of Henry Ford Health System

“The Atlas is visually stunning. The 3d views, the way you can use things... **There is nothing else like this**, especially for pathologists. I require all my residents to sign up for the Atlas.”

- Mari Perez-Rosendahl, MD
(University of California, Irvine)

“As a neurosurgical trainee, this is without a doubt the **most valuable resource I have ever come across.**”

- Dulanka Silva, BA (Hons) MA (Hons) MBBChair MPhil (Cambridge) MRCS (Eng), United Kingdom

“I have long admired and marveled at the Atlas as being one of the **most important vehicles for neurosurgical education** in the history of our specialty.”

- James Rutka, MD (University of Toronto, Editor-in-Chief, Journal of Neurosurgery)

“It is the **single most important website for neurosurgery** in the world.”

- Rick Boop, MD (St. Jude Children’s Hospital and University of Tennessee Health Science Center)
